LEE GOES AS GOVERNOR

Late Consul General Will Be Military Ruler of Cuba.

HIS EXPERIENCE ADMIRABLY FITS HIM FOR THE WORK.

Washington, Aug. 2—Special—It has practically been determined by the administration to place Cuba under a military government for a time after the declaration of peace, and to place affairs in charge of Gen. Fitzhugh Lee. That officer has been consulted, and has expressed his willingness to undertake the task. He is regarded as peculiarly fitted for the position, not only because of his experience with the Spaniards and Cubans while consul general at Havana, but because of his military training, which has given him unusual facility for the government of men. An army of 50,000 men will be needed. These will be sufficient to repress all disorder. The way to a stable government will be gradually prepared, and in the course of a few years the Cubans, in conjunction with American citizens, who will flock to the island by thousands as soon as peace is declared, may become capable of self-government. Their deficiencies at present are fully recognized, and the hazard of placing affairs in their hands is realized. A military government for a few years will be a necessity, but it will not be a harsh but an educational one, conducted with a view to promoting intelligence and self-reliance among the people and not with the purpose of repressing any of their laudable ambitions in the direction of self-government.

Spain's Delay.

Washington, Aug. 2—Special—There is no anxiety here over Spain's delay in accepting the terms of peace. In fact, it will suit the administration's plans to have a delay of a week or ten days. By that time Gen. Miles will be in full possession of Porto Rico, and Manila will be in the hands of the American forces. Even with these advantages gained, however, it is not the purpose of the administration to demand more concessions than those contained in the memorandum given to M. Cambon. The American activity, however, will serve to convince the Madrid government of the hopelessness of attempting to stave off the inevitable. Nothing will be lost by this government by Spain's temporizing.

An Extra Session of Congress.

Washington, Aug. 2—Special—An extra session of both branches of congress will be required to close up the business of the year. Action by the senate will be necessary to make a treaty of peace effective, and a law approved by both branches will be needed to authorize the president to keep in service the armies of occupation in Cuba, Porto Rico and the Philippines. About a hundred thousand men will be required for that duty. The soldiers now in the field will not be available, because their term of service ends with the war.

San Juan Blockaded.

St. Thomas, Aug. 2—Special—San Juan is now blockaded by the New Orleans, Puritan, Prairie, Dixie and Gloucester, which are keeping out of range of the masked batteries ashore. It is expected that the remaining vessels of Sampson's Porto Rico fleet will arrive at San Juan in a day or two.

Talking of Surrender.

New York, Aug. 2—Special—The Evening Journal cable from St. Thomas says Mr. Hanna, United States consul at San Juan before the war, M. Charpentier, French consul, and the entire consular corps are conferring with Gov. Macias regarding the surrender of Porto Rico.

Will Protect the Priests.

Washington, Aug. 3—Special—Information is received that the pope is fearful that the Catholics and priests of Cavaite will be massacred by the insurgents. Dewey and Merritt have been instructed to do all in their power to prevent this.

Another Expedition to Manila.

Washington, Aug. 2—Special—Assistant Secretary of War Meiklejohn stated this morning that sufficient transportation had been secured for the next expedition to Manila.

CAPTURED SPANISH MINES.

When the American fleet entered Guantanamo bay, several of the vessels struck the contact mines that had been placed in the harbor by the Spaniards for the express purpose of making venturesome Yankees "remember the Maine," but the mines were so well covered by friendly barnacles that the plongers failed to work and no explosions occurred. "Well," said a sailor of the Marblehead, "I'm learnin' things in this war—barnacles is somethin' good, after all." The mines were removed from the harbor by marines and sailors, and several of them were taken to New York by the St. Paul. They were opened by experts and rendered harmless. If one of them had exploded beneath the Texas or the Marblehead there would have been a great loss of life and the ship would have been out of commission forever. A similar mine was doubtless used when the Maine was blown up in Havana harbor.

STOLEN HORSE IS RECOVERED

L. D. Fessenden's Missing Mare Found by an Illinois Sheriff.

L. D. Fessenden, of Clinton Junction, has been on the anxious seat since Sunday afternoon. He is the owner of a fast mare known as Jonnie Tombs. Some time ago Mr. Fessenden hired a trairor by the name of Matt Maloney to work out his horse on a half-mile track at Clinton, but lately, thinking it would be better for the horse to be worked on a mile track, he came to Janesville and made arrangements with Mr. Dixon at the fair grounds, for a stall and training quarters. Sunday morning the horse and Trainer Maloney came over from Clinton, and settled in their new quarters. On Monday, Maloney set out with the mare, presumably to work her out, but was not seen again. Sheriff Acheson was notified, and a search for horse and man was begun. The horse was first heard from near Beloit, and last night Sheriff Acheson received a telegram stating that the horse was seen on the way from Rockford to Bolvidore. Early this morning he received another, stating that the horse was found at Marengo, but not stating whether or not the thief was in the hands of the authorities. The sheriff will leave today for Marengo to look for more of the particulars and also for Maloney.

PRICE OF THE PEACE

Official Summary of the Terms Offered to Spain.

THERE WILL BE NO RECEDING FROM THE STIPULATIONS.

Washington, Aug. 2—Special—The following official announcement was issued this afternoon. In order to remove any misapprehension in regard to the negotiations for peace between the United States and Spain it is deemed proper to say that the terms offered by the United States to Spain in the note handed to the French ambassador are as follows:

The president does not now put forward any claims for pecuniary indemnity, but requires the relinquishment of all claim of sovereignty or title to the island of Cuba as well as the immediate evacuation of Spain of the island.

The cession to the United States and immediate evacuation of Porto Rico and other islands under Spanish sovereignty in the West Indies, and the like cession of an island in the Ladrone.

The United States will occupy and hold the city, bay and harbor of Manila pending the conclusion of a treaty of peace, which shall determine the control, disposition and government of the Philippines.

If these terms are accepted [by Spain in their entirety] it is stated that commissioners will be named by the United States to meet commissioners on the part of Spain for the purpose of concluding a treaty of peace on the basis above indicated.

No Reply Received.

Washington, Aug. 2—Special—At ten o'clock today official authority was given for the statement that the reply of Spain to the diplomatic note sent to the Madrid government through the French minister had not been received. Secretary Day returned to Washington this morning from the sea-shore, and said there had been no progress in the peace negotiations.

Brussels, Aug. 2—Special—The Independence Belge says the bands of Carlists have made their appearance in Catalonia, Spain.

Senate May Consider Peace.

Cincinnati, Aug. 2—Special—Senator Foraker has been hurriedly summoned to Washington by Vice President Hobart. This lends color to the belief that an extra session of the senate will be called and peace be concluded in the next few days.

Coamo Occupied.

St. Thomas, Aug. 2—Special—A dispatch from Ponce says the American advance guard reached and occupied Coamo without opposition. Alibante is the next place which will be occupied.

NO TRACE OF KIDNAPPED BOY

Although the police have been active in the search, a few days ago intelligence reached Chicago that a child resembling little Gerald had been seen in a gypsy camp near this city, and Detective McKeough was sent here to investigate. He found no gypsy camp near here, however, and was obliged to return home empty-handed.

BEFORE THE FALL AT SANTIAGO

LIEUT. RICHARDSON DESCRIBES
THE ADVANCE ON THE CITY.

Many Brave Americans Fall By Spanish Bullets—Hardships the American Soldiers Had to Endure—All Did Their Duty Manfully and Elicited High Praise.

Lieut. L. T. Richardson, of this city, who participated in the campaign against Santiago, and was "in at the death," has written a letter home describing the scenes preceding the surrender of the city, from which The Gazette is permitted to make the following extracts:

Santiago, July 15, 1898.—We have had a pretty tough time of it since the last of June. The night of June 30, Bates' brigade, to which we belong, marched from Saboney to the front, starting about 8 p. m. We were either marching or engaged all day on the 1st, night finding us near the extreme right after the fight at Caney. We marched nearly all that night, going to the extreme left, where we halted about 2:30 or 3 a. m. and slept or rather died in our tracks till daylight, when we were aroused again by the Spanish bullets that were coming over the crest of the hill in a manner that made sleep impossible. We remained there until about the middle of the morning when we took a more advanced position and entrenched. My captain was shot there while sitting beside me. He is doing nicely now and has been sent back to the states. About noon of the 3rd all firing was stopped by a succession of truces that lasted till the 10th. On the 7th our brigade made another advance and took up a position about 300 yards from Spanish lines and about 1000 yards from the city. We opened up again on the 10th, and after about twenty-four hours more of it there was another truce, which resulted in the surrender.

We both hope and expect to go to Porto Rico, but probably cannot go for some time yet. A large force will have to remain on guard, and other troops will probably be sent to clear the south coast towns. The Spaniards have put up a splendid fight, and had they shown as much judgement as courage, could have prevented our success for a long time at least.

Men who served through the war say that the army have suffered more hardship and discomfort than in any campaign they ever saw. Certainly the character of our clothing, the country and climate, our being without tents and without proper food and medical attendance have combined to make it very hard. Five of my former classmates were killed July 1 and during our march that night it seemed as though at every turn of the path we heard of another friend lost.

We know that the whole line had been successful, that the city was invested and that foreign attaches had said that our men had made charges that no other troops in the world would do, and yet it was the saddest day the regular army ever saw, twenty-eight officers being killed outright and close to a hundred killed and wounded. The conduct of our men has been something beyond admiration and they deserve the credit.

NARROW ESCAPE FROM DEATH
Only a Prompt Application of the Brakes Saved the Child.

When the 5:35 train from Madison pulled in last evening it had on board a crew who were congratulating themselves that they had succeeded in saving a life. While the train was crossing the bridge a little child seven years old was noticed on the Chicago & Northwestern tracks, but just then an outgoing train started over the bridge. The child became so frightened that she jumped immediately in front of the Madison train, and stood still and screamed. Fortunately the train was moving slowly, and by a quick application of the brakes the train was stopped just in time to save the child. Conductor Corson, who had charge of the train, said that it was the narrowest escape that he had ever seen.

TROOPS MARCH ON SAN JUAN.

Gen. Miles' Army Nearing the Porto Rican Capital.

SPANISH HOLD GOOD POSITION.

Hard Fighting Expected Before the Last Stronghold Is Taken—Gen. Schwan Has Reached the Island, with Part of His Brigade.

Port of Ponce, Aug. 2.—Cable connections have been re-established between Ponce and the outside world.

Gen. Schwan, with the Nineteenth Infantry, arrived Sunday. Other troops are coming in on transports. The forward movement from Ponce is going on gradually. Four companies of the Sixteenth Pennsylvania volunteers have moved out eight miles. It is reported that four miles beyond them 2,000 Spanish soldiers are holding a strong position.

The rejoicing of the Porto Ricans over the American occupation of Ponce continues. The streets are crowded with smiling citizens and villagers who have come to Ponce to see the Americans. The volunteers are coming in to surrender and to ask the privilege of enlisting to fight the Spaniards. They want all the Spanish residents put in prison out of revenge. Gen. Wilson, who has charge of affairs in Ponce, understands the motive behind the tales brought to him, and so arrests of Spaniards have ceased. Gen. Miles' model proclamation points out that we do not want to persecute, but to liberate, has caused a good impression, and the Porto Ricans are now beginning to realize that there is to be no hounding of Spanish sympathizers.

The troops are in excellent health. The weather is cool and pleasant.

Arrival of Gen. Schwan.

Washington, Aug. 2.—The war department has received the following:

"Ponce, Porto Rico, July 30.—Transport Cherokee, with Gen. Schwan on board and part of his brigade, arrived this afternoon. The remainder expected soon."

MILES."

Notwithstanding the fact that he now has a direct cable to Washington, Gen. Miles sent no message Monday, and all that was heard from him was contained in the telegram announcing the arrival at Ponce of the advance of Gen. Schwan's brigade. It is believed that Gen. Miles has succeeded in his plan of intercepting the troop transports before they reached the point in eastern Porto Rico originally selected for their landing, and in diverting them to the excellent harbor he has secured.

July Public Debt Statement.

Washington, Aug. 2.—The monthly statement of the public debt shows that at the close of business July 30, 1898, the debt, less cash in the treasury, amounted to \$978,081,006, a decrease for the month of \$19,004,466. Independent of the cash the statement shows an increase in the debt of \$132,156. The cash in the treasury increased during the month by over \$49,000,000, principally from receipts on account of the new war loan.

Indiana Republican Convention.

Indianapolis, Ind., Aug. 2.—The thirty candidates for the eleven nominations that are to be made by the republican state convention have opened electioneering bureaus in the Denison hotel, and the supporters of each are coming from all over the state. The party platform will endorse the state administration and make special mention of the saving by reason of the inspection of accounts.

FOR BISMARCK'S TOMB.

The Great Chancellor Will Rest in the Spot Selected by Himself.

Berlin, Aug. 2.—A dispatch from Friedrichsrubh to the Hamburg Nachrichten says it has been definitely decided that the remains of Prince Bismarck are to be interred at the spot selected by himself, where a simple mausoleum will be built, and to which the remains of his wife will be transferred from Varzin. Until the mausoleum is completed the funeral rites will be confined to the simple ceremony of blessing the remains, which will be performed by the local pastor of the village of Brunsdorf.

Prince Bismarck's final written instructions, signed by himself, express his desire to be buried in a selected spot in the Sachsenwald, and conclude: "For an epitaph I wish 'Prince von Bismarck, born April 1, 1815, died —' with the addition of 'A faithful German servant of Emperor William I.'"

The emperor has ordered the court to go into mourning for ten days and has ordered the army to go into mourning for eight days. The flags on all the imperial and state buildings will be at half-mast until after the funeral.

Emperor William's Eulogy.

Berlin, Aug. 2.—Emperor William has sent the following telegram to Prince Herbert Bismarck:

"In deep sorrow, and sympathizing with the grief which has struck you all for your beloved great dead, I lament the loss of Germany's great son, whose faithful co-operation in the work of uniting the fatherland won for him the lifelong friendship of my grandfather, resting in God, and the undying thanks of the whole German people for all time. I shall prepare a last abode for his remains in Berlin in the cathedral by the side of my ancestors."

Emperor Thanks the President.

Washington, Aug. 2.—Ambassador White Monday cabled the state department as follows:

"Berlin, Aug. 1.—Adee, Acting Secretary, State Department, Washington:

I am requested to tender the thanks of the emperor and the German people to the president and people of the United States for the message of condolence referring to the death of Prince Bismarck.

WHITE.

Will of the Iron Chancellor.

Hamburg, Aug. 2.—Prince Bismarck's personal estate is estimated to be worth 14,000,000 marks, which is deposited in the Bank of England and with the Bleichroeders of Berlin. He bequeaths half of his fortune to the children of his daughter, Countess Rantzau. His Schoenhause and Friedreichshain estates go to Prince Herbert, and his Varzin property to Count William Bismarck.

Ammunition Was Wasted.

Santiago, July 19.—A party of naval officers anxious to see the effect of the four or five bombardments of the defenses of the harbor by the fleet under Admiral Sampson made a two days' tour of the batteries. One of them made the following statement: "Over \$2,000,000 worth of ammunition thrown at the batteries defending Santiago harbor was absolutely harmless in its effect, so far as the reducing of the batteries was concerned, and, while it may have given the Spaniards a wholesome respect for us, simply bore out the well-known fact that it is a waste of time and money to bombard earthworks."

Silver Men Gather.

Lincoln, Neb., Aug. 2.—Today, for the second time in the history of Nebraska, the three silver parties are holding a state convention. The indications are that the three bodies to convene here this afternoon will make up the most enthusiastic affair of the kind ever witnessed in the west. In all political circles it is freely predicted that the three conventions will permanently adjourn by 6 o'clock this evening, having completed the full state ticket, resolutions and party speechmaking.

Fight Ends in a Draw.

New York, Aug. 2.—According to referee Aleck Brown, Tommy White, of Chicago, and Solly Smith, of Los Angeles, fought a draw at the Greater New York Athletic Club, Coney Island, last night, but according to the majority of 7,000 spectators White was entitled to the verdict, in view of the fact that he outpointed Smith on most of the rounds, had him groggy in the twenty-third, and was also deliberately fouled.

Pass the 200,000,000 Ton Mark.

Washington, Aug. 2.—From advance proofs of the report of the geological survey it is learned the coal production of the United States in 1897 reached 200,221,665 short tons, worth at the mines \$198,869,178. This is the first time the 200,000,000 ton mark has been passed.

McKinley Will Call Congress.

Washington, Aug. 2.—The Post says: "President McKinley will call an extra session of both houses of congress as soon as Spain accepts the terms of peace offered by the United States."

Mr. A. O. Wolfe, of Dundee, Mo., who travels for Mansur & Tibbett's Import Co., of St. Louis, gives travelling men and travelers in general, some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chambeau's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveler in the U. S. will carry a bottle of this remedy in his grip."

HOT SHOT FOR LA FOLLETTE.

The Monroe Sentinel, which supported Mr. La Follette two years ago, is now handling that gentleman without gloves. In a lengthy editorial The Sentinel says:

"Two years ago The Sentinel favored the nomination of Mr. La Follette. He had the First district pretty solidly. There was an open field then and several candidates. Upsham had declined to be candidate. We have a warm personal friendship for Mr. La Follette, and have admired his ability and do not doubt his honesty; but he has made a mistake in supposing he can lead his personal and hitherto political friends into the fatal net of self-condemnation, political abnegation and unjust assumption, that, outside of Robert M. La Follette's candidacy for governor, there is rank ruin and the tortures of a political hell. The faction will learn that no one man is greater than the republican party; that the G. O. P. is not ready to admit that it is in great need of a vicarious atonement of political messiah."

The Sentinel does not take kindly to the statement made by Mr. La Follette in his address to voters, but refers to it as follows:

"Regarding the address of Mr. La Follette to the republicans of Wisconsin, it is an unfounded assumption, in the first place, that the party has never had an honest candidate for governor; that the party has never lived up to its promises; that the legislatures have been influenced by powerful lobbyists to secure corrupt legislation in behalf of personal or corporate interests; that the party has been controlled by a minority of its members; that an appalling condition of things exists in state affairs, that need to be remedied now, etc., etc.

In closing the article The Sentinel says:

"The party can and will afford to be just to its faithful servants. Major Edward Scofield has made a good governor. He is just as honest and as competent a man for the place as he was two years ago when he had the personal support of Mr. La Follette, and received a hundred thousand more votes than his democratic competitor. He is more so for his experience has taught him something he did not then know. His few mistakes have been of personal nature and the state has not suffered. Governor Scofield has the respect of men of all parties, the friendship of the soldiers at the front, for whom he has and will have active regard and a quick, sincere interest."

REMEMBER ATTACKS ON PARTY.

When you go to the caucus next Friday, just bear in mind the fact that Mr. La Follette has said meaner things about the republican party than any democratic paper ever published. He says the party has never had an honest candidate for governor; that all party promises have been broken; that lobbyists have held high carnival, etc., etc. You know that such charges are unfounded, and that the republican who makes them certainly does not have the interests of the party at heart. Governor Scofield has abused no one, and has no axes to grind. He has attended strictly to his own business, and that he has been a careful, conscientious and faithful executive, no one can truthfully deny. The interests of the party will be best served by renominating Governor Scofield, and sending Mr. La Follette to the rear to meditate upon the error of his ways.

Governor Scofield has a long lead on the opposition. Up to yesterday there had been elected eighty delegates to the state convention in the following counties: Racine, Brown, Wood, Door, Outagamie, Oneida and Vilas. Of these seventy-six are for Scofield and four are doubtful. These four are in Racine, and it is claimed by the Scofield men that they are certainly for Scofield, but they are willing to concede that under certain contingencies they may vote for some other candidate.

Governor Scofield does not ask for your vote. He says he stands on his record, and if you want to vote for him, he will feel complimented. Mr. La Follette says in effect, "vote for me or I'll bolt!" This being the case,

there is but one thing for republicans to do—down Mr. La Follette.

Mr. Voter, if you have the interests of your party at heart, vote for delegates to the assembly district convention who will support Governor Scofield. The disturbers in the republican ranks should be voted down. They attack the party only in hopes of personal gain.

Spain has been pounded into an unrecognizable mass. The punishment for her crimes against civilization has been severe, but well merited. When she cries "enough" your Uncle Samuel will remember that "mercy tempers justice."

The Milwaukee Sentinel's scheme to nominate a dark horse for governor meets with the approval of all the would-be dark horses and their friends. Otherwise the suggestion is not taken seriously.

Congressman Cooper has discharged his duties with honor and credit to himself, his district and the republican party. Vote for delegates to the assembly district convention who will support him.

Vote for men for delegates to the various conventions who will work for the best interests of the republican party regardless of the interests of dissatisfied office seekers.

The delegates to the county convention have important duties. Vote only for the delegates whom you know to be good, level headed republicans.

The duty of all republicans—from principle is plain. Smash the La Follette machine,—the traducer of the party that has honored the machine.

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 12.

To the Republican Electors of Wisconsin: By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at two o'clock p.m., for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on notice of less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

A New Superstition. I learned of what to me is a brand-new superstition just the other day, and I tremble to think of the risks I have been running all these years in my ignorance of it. It was at an informal evening entertainment at the house of a woman I know, and in the room set apart for the wraps of the woman guests was a maid who was directed to see to it that nobody's hat was placed on the bed, for the laying of a hat on the bed, as the hostess explained later, always signifies the approaching death of an intimate friend of the house. The superstition is, I believe, of Sicilian origin, and it's a very good superstition, I think, inasmuch as it tends to preserve the freshness of dainty bed coverings.—Washington Post.

Artificial Rubies.

In a recent lecture Prof. A. P. Brown of Philadelphia described the methods now practiced for making artificial gems. Although minute diamonds can be made, with the aid of the electric furnace, none large enough to be employed in jewelry have yet been produced. But rubies of large size, and as fine in color and appearance as the best natural gems, have been made. The ruby is composed of oxide of aluminum. A certain method of detecting artificial rubies is by examination with a microscope. The natural gem is always filled with minute cracks, invisible to the naked eye, but perfectly discernible with a high magnifying power. The artificial ruby has no cracks, but, on the other hand, is filled with minute bubbles, or gas-holes. This test, according to Professor Brown, is the only one by which the best artificial rubies can be distinguished from the same gems as nature makes them.

Governor Scofield does not ask for your vote. He says he stands on his record, and if you want to vote for him, he will feel complimented. Mr. La Follette says in effect, "vote for me or I'll bolt!" This being the case,

LATEST DINING NOVELTY.

Recent Dinner Given by Lispenard Stewart Was Eaten In Three Different Places.

The latest novelty in the way of a dinner was given recently by Lispenard Stewart of New York city. He invited 25 of his friends to dine at Martin's restaurant, where they found an elaborate spread and a beautiful table, decorated with white tulips, lilies of the valley and maidenhair fern. When four courses had been served—oysters, soup and fish and an entree—the ladies resumed their wraps and took carriages furnished by their host to the Hoffman House, where a lunch of English meat.

VOTE FOR BEST MEN

Republicans Must Take No Chances This Year.

ADMINISTRATION SHOULD BE SUPPORTED.

Down the Men Who Slander The Party.

LA FOLLETTE MACHINE'S PLATFORM NOT NEW.

Sets Forth No Principle That Any Republican Cannot Endorse, So the Issue Is Simply One of Personal Qualifications and Party Duty to Support the Administration—Succidal For County to Oppose Congressman Cooper—The Caucuses

The republican caucuses to elect delegates to the various conventions will be held on Friday, from 1 to 5 o'clock p.m., at the following places, in which the preliminary meetings were held. The chairmen and secretaries of the preliminary meetings will also be the chairmen and secretaries of the caucuses. In nearly all the wards, there are long lists of delegates to be voted for—many more names than there can be delegates to the convention. But ten delegates can attend from the First ward, but six from the Second, but ten from the Third, but eight from the Fourth, and but five from the Fifth ward. The legal number of delegates receiving the largest number of votes will be the delegates to the various conventions. The representation to the various conventions will be the same—First ward, 10; Second ward, 6; Third ward, 10; Fourth ward, 8; and Fifth ward, 4.

The delegates elected to the county convention—to be held August 8 at 3 p.m. at the circuit court room—will select candidates for county officers. The delegates to the congressional assembly district convention—to be held at the council chamber August 8, at 11:30 a.m.—will elect nine delegates to the congressional convention, to be held at Elkhorn on August 10, at noon.

The delegates elected to the state assembly district convention—to be held at the council chamber at 10:30 a.m. on August 8—will elect nine delegates to the republican state convention, to be held at Milwaukee on August 17.

Principles, Not Men

All republicans who have the interests of the party rather than the interests of individuals at heart, should vote only for delegates whom they know will vote to renominate Governor Scofield and Congressman Cooper. The opposition to both men is the result of the agitation, principally of cacao hunters. As every intelligent voter knows, both have discharged their duties faithfully and well, and no charge of any consequence can be made against either. Gov. Scofield is opposed by the La Follette machine. This machine advocates no new principles, and its platform does not differ materially from the one the state convention is likely to adopt in any event. Therefore the issue is only as to the personal qualifications of the two men. Between them the choice is easily made. Gov. Scofield leaves his fate to the voters only asking them to base their action on his record. Mr. La Follette has attacked the party viciously, and does not deny that he will bolt if he is defeated. The republicans of this city cannot be driven or bulled, and they realize that party welfare demands Mr. La Follette's defeat. They will therefore vote only for delegates whom they know will support the administration.

For Rock county to go against Congressman Cooper would be suicidal. Unless Mr. Cooper is renominated the nomination will go to some other county in the district, as it is an admitted fact that no Rock county man can be nominated this year. This being the case Rock county would have no chance to nominate one of her favorite sons for from six to eight years. If Rock county sends Congressman Cooper a solid delegation this year, a Rock county man will surely succeed him when his term of service ends. Then it will be plainly seen that Rock county republicans will best serve their own interests by supporting Congressman Cooper. The wisdom of this cause, from a purely political standpoint, is apparent. Beside this, all good republicans should rally to his support simply as a reward of merit. Mr. Cooper has been one of the most influential congressmen on the floor of the house, and the district cannot afford to dispense with his services in favor of any new and untried man who must devote his whole first term to "learning the ropes" and his second term to "getting acquainted."

For County Officers

Citizens should vote for the cele gates to the county convention whom they know will support the men they desire to be nominated for county offices. The only fight in this city is between William H. Appleby and Wallace Cochrane, for sheriff. Both sons.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee, creating papers sold in this part of the state.

EEEEEEEEE

of these men are known personally to all Janesville people and their official records are equally well known. This being the case, the voters can readily decide which gentleman will make the best officer and vote for delegate accordingly. None of the candidates for the other county offices have made up lists of delegates.

Under the new law the responsibility for selecting the best men rests solely with the voters themselves. They cannot be interfered with in any way, and can vote just as they please. The new law does away with all chance for machine work, and the will of the people only can be registered. Thus the voters should take care to ascertain which delegates will vote for the best interests of the party, and then vote for them and for them only.

There is no question but what the mass of the people think the interests of the party require the renomination of Governor Scofield and Congressman Cooper, and the delegates who stand for these two efficient officials will get a large majority.

THE PRELIMINARIES HERE LAST NIGHT

REPUBLICANS PUT DELEGATES IN NOMINATION.

First Meeting Under the New Law Draws Forth Comments Both Favorable and Unfavorable—The Delegates to Be Voted On At the Caucuses Next Friday.

The republican primary meetings were held last night, and passed off very quietly. Many opinions were naturally advanced as to the new law, and comments both favorable and unfavorable were heard. The principal complaint seemed to be the fact that the preliminary gave no decisive results upon which to base calculation, while under the old system "the first battle" told the whole story. The attendance was rather light in all the wards. In the third ward, a caucus under the old system would call out between two and three hundred citizens, while last night but thirty-two men attended. As last night's meeting was not a "caucus," however, but simply a preliminary meeting to suggest delegates, it is hardly fair to judge attendance thereby. The result of the preliminaries was as follows:

MARTIN THORN EXECUTED.

Pays the Penalty at Sing Sing for the Murder of William Guldenuppe.
New York, Aug. 2.—Martin Thorn was electrocuted in the prison at Sing Sing at 11:17 o'clock Monday morning for the murder of William Guldenuppe. When summoned to the execu-

MARTIN THORN.
tion chair Thorn showed no emotion, walked to it quickly, repeating prayers after the attending priest. There was no untoward incident in connection with the execution, and after the current had been turned on fifty-five seconds Thorn was dead.

The crime for which Martin Thorn paid the death penalty was the murderer of William Guldenuppe, a bathhouse attendant, June 25, 1897. Mrs. Augusta Nack, who was charged with being an accomplice, turned state's evidence at the trial and told how she had decoyed Guldenuppe into a cottage at Woodside, L. I., where Thorn was waiting to take his life. Guldenuppe was shot and his head dismembered from the body to prevent identification. The body was then placed in a table cloth and thrown into the East river. Mrs. Nack was allowed to plead guilty to manslaughter and was sentenced to fifteen years' imprisonment. The motive of the crime was jealousy.

May Settle Pana Strike.			
Pana, Ill., Aug. 2.—Developments pointing to a settlement of the miners' lockout, existing here since April 1, were made known today. After a conference with the owners of the Pana coal mine, Supt. Julius Broehl returned to Pana, summoned George G. Gravens, president of the Miners' union, and submitted to him a proposition to open the Pana mine with union men, granting the scale price for day labor and paying the miners 30 cents for digging, the company furnishing all supplies, except powder. This is 3 cents under the scale price as placed by the state board of arbitration, and the company claims it is all it can pay and operate the mine without loss.			
Nuevitas Evacuated.			
Key West, Fla., Aug. 2.—Reports have reached here that Nuevitas, on the north coast of the province of Porto Principe, Cuba, has been bombarded by the ships of the blockading squadron, evacuated by the Spanish and subsequently burned. No details are known, that the only information of the affair was given by Capt. Maynard of the gunboat Nashville by Lieut.-Col. Rojas of the insurgent forces at Gibara last Tuesday.

Killed by a Cave-In.

Hamilton, Mo., Aug. 2.—While a party of hunters was attempting to dig a fox out of a hole on a hillside in Kildon township, ten miles west of here, a part of the embankment as large as an ordinary dwelling caved in, killing John and Will Parker instantly. James Keys was crushed and died later. Clarence Baker is badly bruised about the back. The two sons of W. S. Martin are badly injured.

Russia Intimidates Persia.

London, Aug. 2.—A dispatch to the Times from Paris says that Russia recently intervened to forbid Persia from concluding a loan that had been virtually arranged with a group of British banks. Russia offered a larger advance on the security of the Persian customs. Probably in the absence of energetic support by Great Britain Persia will try to compromise by rejecting both schemes.

Incluas Has Done Enough.

Washington, Aug. 2.—It is said on good authority that no more Illinois regiments will be ordered to the front, but that the troops to be called out hereafter will be from states that have no regiments at the front.

Populists of Alabama Defeated.

Birmingham, Ala., Aug. 2.—Returns are being received here at the headquarters of the democratic and populist parties, and all indications point to a decided victory for the democratic ticket. It is estimated that Gov. Joseph F. Johnston has been re-elected by a majority of not less than 50,000 against a majority of 38,000 last year. The greatest apathy prevailed in the state, and only three-fourths of the vote was cast.

Spain Thinks Terms Hard.

London, Aug. 2.—The Madrid correspondent of the Standard says:

"The impressions are less favorable tonight. The terms laid down by the United States are harder in tone and substance than was supposed, especially regarding the Philippines, where scope is left for Aguinaldo and the natives to interfere in the final settlement before the mixed commission, which would create conditions in the archipelago rendering the working of Spanish rule almost impossible. It is rumored also that America insists on Spain paying the municipal debts of the Spanish West Indies and old-standing claims of American citizens."

Will Bring Troops North.

Washington, Aug. 2.—Sternberg of the army has recommended to Secretary Alger that the troops now in Camp Alger, near this city, be removed at an early date to some other location more healthy than the one they now occupy. The increasing number of typhoid fever cases, which disease has prevailed there for some time, is the reason assigned by Gen. Sternberg in making the recommendation.

Cripple Creek's Big Gold Output.

Colorado Springs, Colo., Aug. 2.—The gold output of Cripple Creek district for the month of July was \$1,321,552. This is \$18,000 in advance of the best month's record of the camp, which was the month preceding. The output for the first six months this year was \$7,000,000.

LATE NEWS BY TELEGRAPH...

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Spain Likely to Accept the Terms Offered.

WEDNESDAY MAY SEE THE END.

The Reply of the Spanish Government Is Expected Then—Extra Session of Congress Will Be Called to Ratify the Treaty of Peace.

Washington, Aug. 2.—It is felt in official circles that the end of the war is at hand and that Spain will accept the terms offered. The reply of the Sagasta government to the president's demand will probably be received Wednesday and members of the administration do not doubt that Spain will acquiesce. It is even suggested that Wednesday may be the last day of the war. Spain cannot fight any longer. She has no money. This alone would compel her to yield. Besides, she is in constant fear of a Carlist rising, and may need her entire military force to maintain quiet at home. Already there is talk of an extra session of congress, in order to have the senate ready to ratify the treaty which will be drawn up, and also to have the house at hand to aid in passing laws to enable the government to occupy the territory which is conquered, and to provide for Porto Rico, Hawaii, and other lands that may be retained permanently.

When the treaty has been drawn up and signed a commission will have to settle the question of the disposition of the Philippines and other islands in the Pacific. The treaty will probably be drafted by Secretary Day and Ambassador Cambon.

CHANGE IS MADE.

Sagasta Says Washington Has Modified the Peace Terms.

Madrid, Aug. 2.—The cabinet council sat Monday morning and again for four hours in the afternoon, discussing the peace terms. A dispatch was then sent to Washington for further explanation of some difficult points. When the replies are received the cabinet will reassemble.

Senor Sagasta, the premier, confirms the report that some "modification of the original terms have been obtained."

The Liberal says that the Spanish-American peace commissioners are to meet in London, and that the points which will be discussed will be the disposition to be made of the Philippine islands, the payment of the Cuban debt, the evacuation of Cuba and Porto Rico and the ownership of the war material in the Antilles.

The Spanish minister of war, Gen. Corren, is said to be "natively arranging for the repatriation of the Santiago soldiers," the first of whom are expected to arrive in Spain at the end of August.

FIFTY THOUSAND FOR CUBA.

This Force Will Occupy the Island After Peace Is Declared.

Washington, Aug. 2.—The administration is contemplating the detail of an army of 50,000 men for the occupation of Cuba after peace shall have been declared. This occupation, from the present outlook, will begin in the early fall. The force of 50,000 will be selected from the volunteer army exclusively, and pains will be taken to give those regiments which have not yet gone to the front a chance to see service in Cuba. Military government will temporarily prevail throughout the island in all probability, and Maj.-Gen. Fitzhugh Lee will be placed in command of the garrisoning army and made military governor of the territory.

No International Conference.

Berlin, Aug. 2.—The report, coming this time from Vienna, that there will be a conference in Paris for the settlement of the Philippine question, and that all the great powers will be represented on this conference, is discredited here. At the Foreign Office no one knows about such a scheme. Neither Spain nor the United States is desirous of life.

Don Carlos to Start Civil War.

Madrid, via Spanish Frontier, July 31.—A New York World correspondent cables: The government has positive information that the Carlists have resolved to start a civil war in Spain very soon. Advice received by the court and by the foreign ministry from Havana and the Vatican show that Don Carlos believes that he cannot afford to lose this, his last opportunity of fighting for the throne of Spain.

Great Britain and Philippines.

London, Aug. 2.—In the house of commons the parliamentary secretary of the foreign office, George N. Curzon, answering a question, said there were no negotiations in progress between Great Britain and the United States in regard to the Philippine Islands and that no information had reached her majesty's government in support of the statement that Germany had made or was making an attempt to acquire the island of Luzon.

TO SEIZE HAVANA.

General Lee Will Have Charge of the Operations.

Washington, Aug. 2.—Plans are maturing for the occupation of Havana province and other portions of western Cuba. It is the present intention to give Gen. Lee 5,000 troops for the province of Havana alone. The consummation of peace will not make much difference in the sending of this army. The evacuation of Havana by terms would necessarily call for quite a number of soldiers very soon, but the war department is not expecting much of hurry call before September. Letters have been written to the colonels commanding the immune regiments, asking that they be made ready for active service as rapidly as possible.

To Gen. Lee for Havana province will be assigned volunteer troops who have not seen service. He will get regiments who have been sweltering in hot camps, drilling and drudging through routine work. They will doubtless see no fighting, but the experience in establishing good government will offer plenty of variety for the volunteers. For a time every little town will be occupied.

Fatal Fire at Chicago.

Chicago, Aug. 2.—Three killed and fourteen injured is the record of a fire that broke out at 2:30 Monday morning in the Berwyn hotel, 148-159 North State street. Starting in a bicycle repair shop adjoining the hotel, the flames spread to the basement of the hotel and then making their way up both the front and rear stairways, cut off escape to the dozens of guests. Some, in the panic that ensued, jumped to the sidewalk and sustained broken legs and arms; others waited in their apartments and were rescued, while most of the guests made their way out of the building by means of a fire escape leading into an alley.

San Juan Prepares to Fight.

San Juan, Porto Rico, Aug. 2.—The Spanish troops in this city assert their determination to fight desperately before surrendering to Gen. Miles. There is little talk of yielding. Every preparation is being made for resistance, and the appearance of the advance post of the American army is eagerly expected every day. Gov.-Gen. Macias says San Juan cannot be captured without a battle resulting in heavy loss of life.

St. Louis Has a Hanging.

St. Louis, Mo., Aug. 2.—George Thompson, colored, was hanged at 6:15 a.m. He was cut down about eight minutes later, death having resulted from strangulation. The condemned man died game, protesting his innocence to the last. The crime for which Thompson died was the poisoning of Joseph Cunningham, the white sexton of St. Peter's Episcopal church, Sept. 29, 1894.

Fatal Wreck in Georgia.

Atlanta, Ga., Aug. 2.—A freight wreck, in which two men were killed and four or five injured, occurred on the Central railroad at Fort McPherson Monday. A train bearing soldiers bound for the camp at Lithia Springs was run into by a freight train. Both engines and trains were badly wrecked, cars being piled one upon another.

Situation in the Philippines.

Washington, Aug. 2.—Secretary Alger and Secretary Long are in conference with the president over the serious situation in the Philippines. They have important dispatches from Gen. Merritt and Admiral Dewey. Secretary Alger admitted the significance of these dispatches, but declined to state their exact nature.

For a British Naval Reserve.

St. John's, N.F., Aug. 2.—George J. Goschen, first lord of the British admiralty, has arranged to organize a naval reserve among the Newfoundland fishermen, enrolling 500, who will be drilled by special instructors sent from England.

THE DYSPEPTIC GROWS FAT.

When he goes camping--the man who don't care whether he eats or not in the city develops an appetite that surprises his friends; and drains the larder. Half the fun of camp life is the meal time; everything tastes so good. We have of late years made a specialty of picnic goods. We have studied carefully the wants of the camper and our stock shows the result--it is complete in every particular. Our trade with the people who go into camp has been larger this season than ever. If you are planning an outing come and see us. Our prices are low for the qualities.

"Hush, now, your shoes squeak! Take them off."
"Do you think he is asleep?"
"Yes, but don't breathe. Now wait."
"How infernally dark the house is. Can't I light up a little?"
"Sh-h! Certainly not. He would hear the match. Come!"
"Hang the stairs! How they creak!"
"Step softly. Don't stumble."
"Where are you?"
"Keep quiet. Don't breathe so loud."
"I—I can't help it. I can't hold it in."
"Sh-h-h!"
"Hang that infernal chair!"
"Now you've gone and done it! The baby is awake!"—Cleveland Plain Dealer.

Real Men.
"Before a man is married," said the minstrel orator, "before a man is married, he is only half a man."
"There!" said the married women to their escorts, "how do you like that?"
"And after he is married," continued the orator, "he is nobody at all."—Indianapolis Journal.

So Mean.
The Soprano—I'll tell you during the sermon.
The Alto—Don't; you'll make too much noise.
The Soprano—No, I'll drop my voice.
The Alto—Don't; it's cracked already.—N. Y. World.

An Indication.
Singleton—Now that you have been married to the helress for several months, I want to ask you: Is marriage a failure?

My, There's the Rub.
"Pooh! I know a story that's just as good as that!" exclaimed the bore.
"Undoubtedly," they replied; "If you could only tell it as well!"—Chicago Post.

Aspirates and Vowels.
Ethel—Have you noticed how Lord Slabides drops his aspirates?
Penelope—Oh, but that's nothing to the way he drops his vowels—papa says he has got more than a dozen of his IO U's.—Tit-Bits.

Persistent.
Herr Von X (to a persistent peddler)
If I wasn't afraid I should soil my hands on you I should pitch you down-stairs!

Peddler—Well, in that case, can't I sell you a pair of gloves? — Unsere Gesellschaft.
